Mumbai

Objective

Aspiring Network Engineer with a keen interest in networking technologies and a foundation in network infrastructure and protocols. Adept at utilizing modern AI-driven tools to improve efficiency, accelerate project development, and support technical problem-solving. Passionate about continuous learning, with a long-term focus on cybersecurity, and eager to contribute to a dynamic technology environment while expanding practical expertise.

Education

Anjuman Riyazul Islam High School, Govandi, Mumbai-400043
SSC [2020-2021]: 84.20%

Maharashtra College of Arts, Science & Commerce, Byculla, Mumbai-400008
HSC [2022-2023]: 60.50%
B.Sc. (Information Technology) [2023-2026]: CGPA 9.1

Key Skills

Networking: TCP/IP, Subnetting, Routing & Switching, DHCP
Cybersecurity: Security Fundamentals, Network Security Basics
Web Development: HTML, CSS, Python Frameworks
Tools: Linux, Cisco Packet Tracer, Git, MySQL, PostgreSQL

Experience

- Built and maintained multiple full-stack web applications using Python-based frameworks.
- Implemented authentication, role-based access control, REST APIs, and database integration.
- Focused on secure development practices, application functionality, and user experience.

Projects

Real School Website (Under Development) – Developing a secure educational platform with authentication, role-based access control, backend functionality, database integration, and security-focused development practices.
ALTRONAUT – Built a full-stack alternative finder platform featuring authentication, REST APIs, database integration, and secure session management.
Biznoid – Developed a business idea validation platform with backend logic, database operations, and interactive user workflows.

Languages

Programming: Python, Java, C, C++, SQL
Frontend: HTML, CSS, Javascript, .NET
Backend: Flask, Django, Servlet, JSP

Other interests

Cloud Technologies, Cyber Security, Data Analysis, GenAI, GIS
